### **APPENDIX H**

## Skate Park Cost Estimate

"Street Park" Skate Park in Somerset KY

A representative from Landscape Structures Inc. met with Bill Stevens, Cindy Sholar Jamie Lewis and the consultant at the old IGA store, a potential location for the

proposed skate park. All agreed the back section of the IGA parking lot would be an ideal location with the existing partial rock wall providing a nice visual boundary.

The representative also recommended a "street park" design format using the existing asphalt parking lot as the base for the pad. As noted in ACTION 5, a "street park" (above) is one in which a flat concrete pad is poured and elements added separately. He also suggested the following seven obstacles:

- Obstacle 1: 10' flat grind
- Obstacle 2: 3x8 Quarter Pipe
- Obstacle 3: Urban Series Skate Bench
- Obstacle4: Combined Plaza Deck, Street Grindbox (3) and Ledges (2)
- Obstacle 5: Combined Jump Launch & Urban Series Skate Table
- Obstacle 6: Flat Kinked Grind Rail
- Obstacle 7: 11' Street Ledge

IGA parking lot off Main Street in Downtown Cadiz.

6x8 Quarter Pipe
