Turn off and signage to Prison. Please note, coming from the other direction off I-75, the prison is the only thing promoted on this route. Is this really what you want your county to be known for and a reason for people to visit? Recommendation: Add a sign at the intersection of Hwy 63 and I-75 letting people know that Stearns Railway is this direction, if not also the Big South Fork Recreation Area.

NOTE: McCreary County is 85% federally owned so there is very little tax base. Have two major factories - One in Stearn and the other out Hwy 92 W (Outdoors Adventure Tent Co.) which is a federal contract to produce tents. The prison handles 1,000 prisoners and the airport can fly in corporate jets).

There are 17,000 people accounted for in McCreary County. Sixty of them are millionaires. Salersville and Strunk used to be coal camps that have now merged into one small community Mr. Strunk had 26 boys....Thus the huge number of Strunks you will meet.
