

DISC GOLF SIGNATURE COURSE

TOUR OF MYER CREEK PARK TRAILS

November 2006 Exploring the possibility of Disc Golf Course

In November 2006, local disc golf enthusiast Andy Bowles and HB Clark, owner and designer for HB Clark Signature Courses met on site and toured Myer Creek Park to determine the potential for developing a signature 18-hole course within the Park. Below are a few photos from that day and the plans they eventually developed.

Andy and HB spend hours in Myer Creek walking the property and discussing the best locations for the holes.

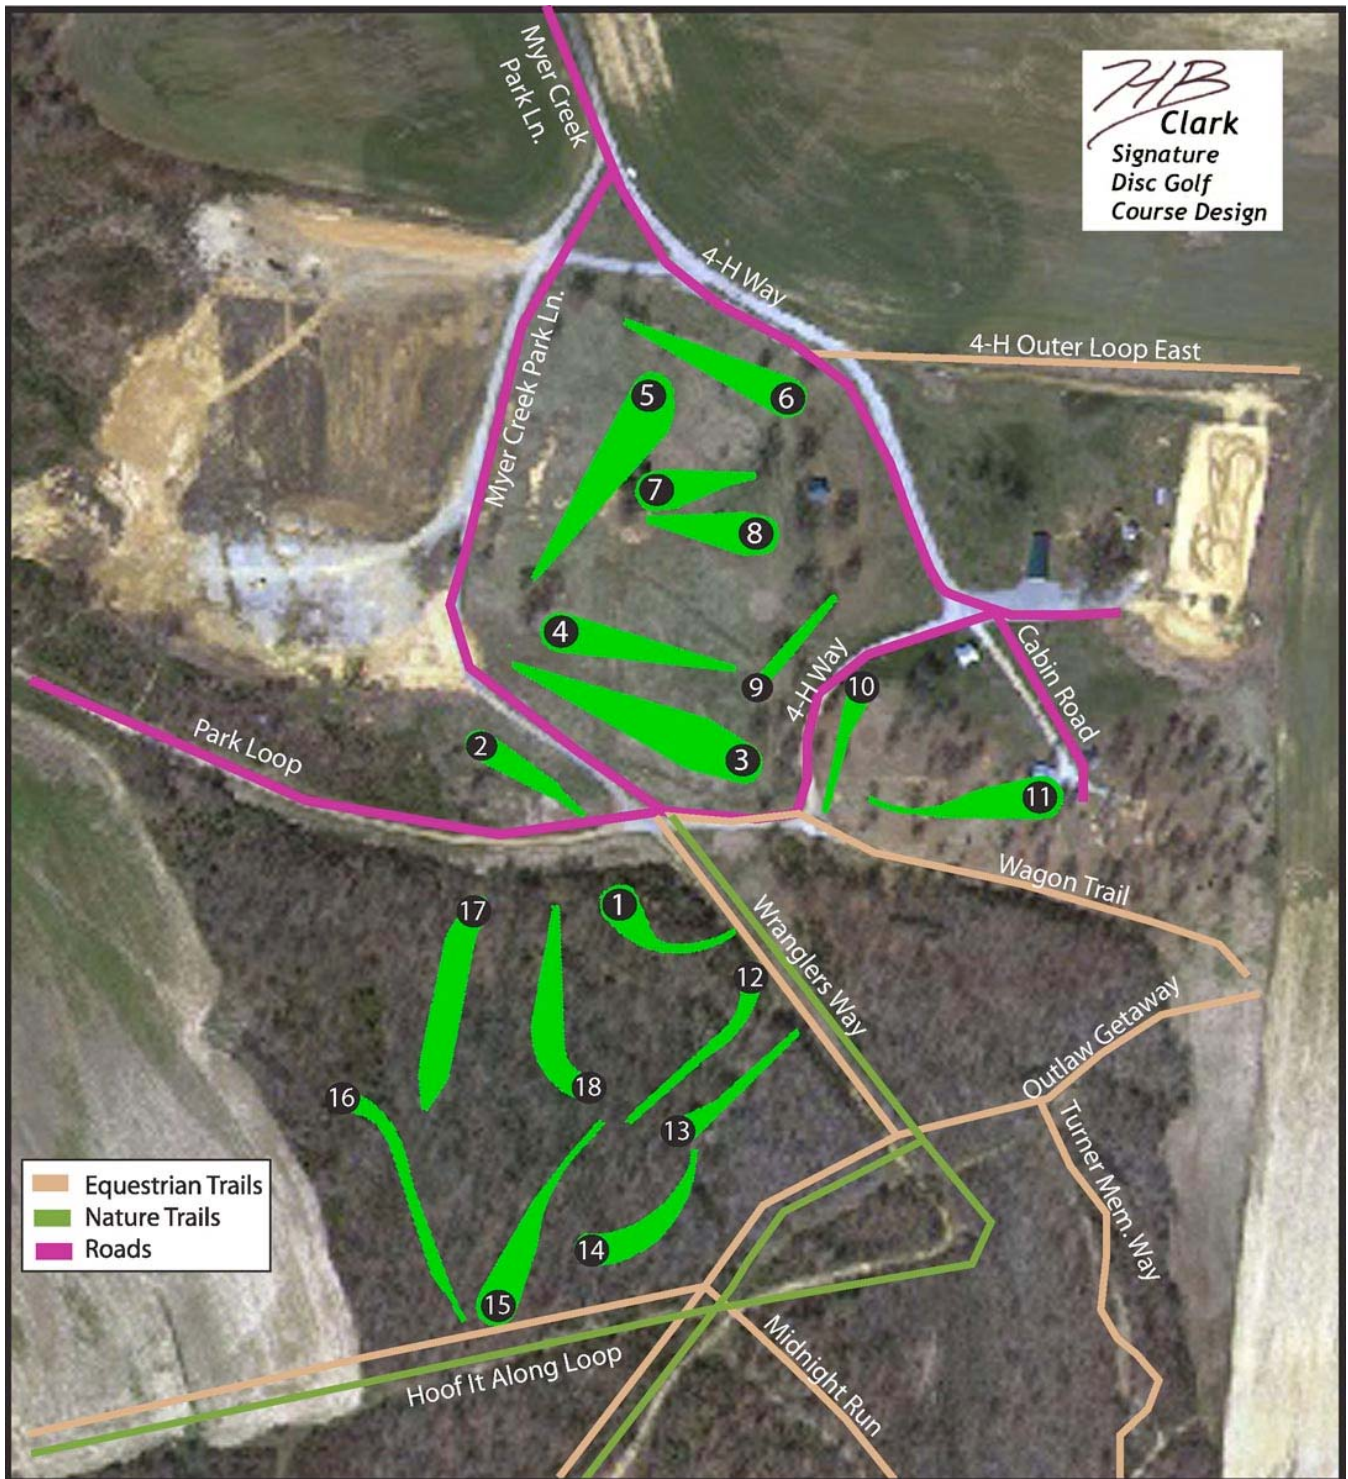

In February, HB Clark came back and laid out the course on paper, providing GPS points for each of the locations. This information was then laid out on the map below. *A larger more viewable map is located on the following page.*
